Education

- *Full-Stack Web+Mobile Development:* Nucamp Coding Bootcamp, Nov 2022 - Apr 2023.
 - Comprehensive training in modern web and mobile development technologies. Emphasized hands-on experience with both front-end and back-end technologies, and collaboration on real-world projects.
- *Web Development Fundamentals:* Nucamp Coding Bootcamp, Oct 2022.
 - Acquired foundational knowledge of web development principles and practices, focusing on core web technologies such as HTML5, CSS3, and basic JavaScript.

Work Experience

- *Line Cook,* Honey Eatery & Social Club, April 2022 - Current:
 - Skilled at cooking high-quality dishes under pressure, while keeping the kitchen spotless.
 - Managed kitchen flow and worked well with the team, also helping with inventory and menu tweaks.

Web Projects

- *NativeProTracker,* March 2022 - Current:
 - Developed a Web/Mobile app for Production tracking, implemented CRUD functionality, and added data visualization features using Expo-React-Native, React, and Redux. Actively maintaining and enhancing the app for optimal performance and feature updates. Play with it at **NativeProTracker**.
- *Portfolio/MyReactApp,* November 2022 - Current:
 - Crafted a React Single Page Application (SPA) to highlight web applications, showcasing development and design proficiency. Utilized a ReactStrap template for the design. Recently updated all libraries and dependencies to their latest versions for optimal performance and security. Check it out at **Portfolio**.
