Experience

Humor Hub (May 2024) thehumorhub.com:

- Developed an all-in-one comedy platform combining MicFinder and Comedify, featuring Comicbot (a custom uncensored, unfiltered comedy-trained LLM).

- Created Jokepad for editing and refining jokes, and MicFinder for locating open mics with maps and events.

- Included an API page for fetching the latest news for joke material. Built with Tailwind CSS, modern dark minimalist design, and deployed to Vercel.

Floras Weddings (Jan 2024) florasweddings.com:

- Developed a visually stunning, responsive website for a local florist using Next.js, with deployment through Vercel.

- Features elegant wedding galleries and interactive user features. Link: Floras Weddings

Portfolio/MyReactApp (Feb 2024) portfolio1:

- A Next.js (SPA) portfolio showcasing web applications. Utilizes the Chronark template.

Portfolio 2 (July 2023) portfolio2:

- Created a single-page application (SPA) using React, Reactstrap, and Bootstrap. Focused on modern UI design and responsive layout.
